# WEBSITE DESIGN

## Overview

Our unique industry-based, consultative approach helps clients envision, build and run more innovative and efficient businesses.

## The Process

Design are only pieces of the whole web design process. We'll broaden the scope to consider the big picture of how sites get built and published to the Web. Web sites come in all shapes and sizes—from a single page resume to mega-sites conducting business for worldwide corporations and everything in between. The process for developing a site involves some basic steps:

## What We Choose First

### Color Palette

Century gothic

## What We Do In Designing

### Wireframes

The first step is to create wireframe. So that client may know how's it website will look like. Its just a rough sketch of where to place the things like banner navigation etc.

## Photoshop

After showing to client the wireframe, if he suggest some changes then we do that and after his approval we start making the design layout in photoshop to give extra effects and color combination according to client needs and to present the mockup in a creative way.

## HTML, CSS, JS, AJAX, BOOTSTRAP

After getting the approval from the client on mockup design then we start converting the mockup sample into html/css by using javascript, ajax, giving special effects to buttons, navigation section according to the web standards and w3 validation. We make the layout responsive working in ever resolution from mobile devices to large desktops and make it responsive according to client needs if he want the design responsive in bootstrap also.

## Testing on google PageSpeed Insights

After uploading we check the page speed of the website. If there are any issues in mobile as well as desktop version. Then we resolve the issues by checking the website on page speed insight.

## W3C Validation

We validate the page according to the w3c standards and then provide the website to the client.

**Overview**  
The University of California was founded in 1868 and operated temporarily in Oakland until opening its first campus in Berkeley in 1873. Its tenth and newest campus in Merced opened in fall 2005.

Nine campuses enroll both undergraduate and graduate students; one campus, UC San Francisco, enrolls only graduate and professional students in the medical and health sciences. In addition, the UC Hastings College of Law, located in San Francisco, is legally affiliated with UC, but other than sharing its name is entirely autonomous from the rest of the system.

**Admission Requirement**

- ✓ Graduate Record Examination (GRE)
- ✓ Letters of Recommendation
- ✓ University Extension, Concurrent Enrollment
- ✓ Application Fee
- ✓ Transfer of Credit from Other Institutions

**Graduate Program Rankings**  
**Congrats to UC Berkeley's GradSlam winners:**

## Fashion Week Magazine

Fashion week is the world's most visited fashion website for 18 - to 34-years-olds. It boasts 30 million unique monthly visitors and 8 million customers in 200 countries. Its magazine is changing the relationship between e-commerce and media, giving traditional fashion magazines a run for their money in the process.

Not only does it have a glossy print mag to flip through, but it also provides a clickable version online that allows users to shop right from the page. In the editorial spreads, each image features little squares in the corner labeled one and two. Click on the two, and you'll see a remixed version of the first outfit, showcasing the versatility of the clothes.

## The Food Panda Brochure

The pioneers of live-grills and saucy appetizers have come a long way to bring the taste every mouth craves. Here's a throwback of that fiery journey. Every kind of continental, italian, country special food is available in our restaurants. We are available 24X7 to your services.
